

Art.nr: 3132

NM Hyper Mid/End Clamp

The Mid/End Clamp is hung on the rail. The top is always in the highest position in order to allow the next solar panel to be attached. By tightening the screw, the top will clamp and securely hold the solar panels in place. The clips are adapted for solar panels with a thickness of up to 28-40 millimetres and an overlaying frame of minimum 9 mm.

Performance

Our products are designed and tested to make installation as hassle-free, easy and safe as possible. Feel free to contact us if you have any questions, and we will be happy to help you.

Product details

Length	60 mm
Width	35 mm
Width (between panels)	20 mm
Height	65-90 mm
Solar panel	28-40 mm
Clamp zone	50 mm
Socket	Hex 8 mm
Warranty	30 years
Snow zone	1-5,5
Corrosion class	C4
Manufactured in	Sweden
Tightening torque	8-10 Nm
