NM Flow Clamp

NM Flow Clamp is a universal end clamp for solar panel installations on low-sloped roofs. It is compatible with all panel frames and designed to provide perfectly balanced pressure in every installation. The clamp securely fastens the panel, ensuring stability, and is attached to the system's low base module. Developed in accordance with panel manufacturers' guidelines for clamps and clamp zones, NM Flow Clamp guarantees a safe and reliable installation.

Performance

Our products are designed and tested to make installation as hassle-free, easy and safe as possible. Feel free to contact us if you have any questions, and we will be happy to help you.
