

Art.nr: 8001

NM Flow Wing

NM Flow Wing is a low base module for solar panel installation on low-sloped roofs. The wing's wide profile, integrated drainage channels, panel support, and raised ballast areas provide a gentle and safe solution for both the roof and the installer. NM Flow Wing clicks together with the tall base module to create a robust foundation, designed to withstand harsh weather conditions—without the need for additional fasteners. NM Flow Tower is patent pending: 2430491-7.

Performance

Our products are designed and tested to make installation as hassle-free, easy and safe as possible. Feel free to contact us if you have any questions, and we will be happy to help you.

Product details

Length	950 mm
Width	283 mm
Height	67,5 mm
Weight	3000 g
Panel tilt	10°
Panel width, position 1	984-1040mm
Panel width, position 2	1118-1174 mm
Corrosion class	C4
Warranty	25 years
Made in	Sweden
